

Re-opening at a Glance

Our Approach

- For students Nursery-Grade 8, in-person learning will take place for everyone, everyday.
- For Upper School students, two mixed-grade cohorts will attend in-person on alternating days; on “off days,” students will participate in classes via live-streaming.
- We offer a fully remote program for students who opt-out of in person learning.
- We offer a short-term remote program for those who are remote for short periods of time.
- We have prepared Harley-at-Home 2.0 should authorities put a halt to in-person learning. In that scenario, we will provide childcare to students in Nursery–Grade 8.
- We will have a phase-in period, with special schedules by division, for the first eight days of the school year.

Safety Basics

- To enter the building, all must have completed a daily Harley Health Check.
- We are wearing face coverings all the time, except on teacher-initiated “mask breaks.” No masks with valves, gators, or bandanas.
- We are social distancing all the time, with modifications for outdoor activities.
- Personal hand and respiratory hygiene are part of classroom routines.
- Strict cleaning and disinfection protocols will continue throughout the School.
- Lunches will be prepared by our kitchen staff and delivered to classrooms.

Illness/Symptoms

- We are strictly following the guidelines of the NYS and Monroe County Departments of Health.
- Harley has a dedicated Contact Tracing Coordinator, Deb Houghtalen, R.N., B.S.N.
- We have a published “decision tree” on how to handle symptoms—both those that develop at home and at School—as well as diagnoses, close contacts, and travel.

You can find it at: harleyschool.org/backtoschool2020.

Comings and Goings

- Students in each division will enter through separate entrances. Pick-up and drop-off procedures will come from divisional offices.
- Arrival and departure times will be “staggered” by division.
